

Translated from Romanian

AVANGARDE KIDS EDUCATIONAL CENTER

Every parent goes into the dilemma of choosing the kindergarten at some point, and despite all searches, he still feels that something is missing...

The AVANGARDE KIDS team, as parents, people interested in the present and future of our children, we are open to listening, discussing and ultimately implementing your ideas. So ... Mommy, Daddy you have the word!

“- I would like my son to...

“- I would love my daughter to...

“- Can we also include in the diet of children?”

Dear parents,

Starting with the school year 2018/2019, the **AVANGARDE KIDS Educational Center** will open its doors to meet your needs and your children's needs.

The **AVANGARDE KIDS Educational Center** is located in Pipera-Voluntari, Ilfov, Avangarde Forest 7 complex, in a new and generous villa, with modern facilities for carrying out the activities intended for children (classrooms, dining room, relaxation area, medical office, managerial office, dressing room, sanitary groups adapted to children's needs, courtyard).

The **AVANGARDE KIDS Educational Center** is equipped with audio-video equipment, new teaching materials and specially designed furniture to meet the children's needs. At the same time, for the best comfort of the children and the care for maintaining a healthy climate, all premises will be equipped with underfloor heating and Salin air purifiers, the latter having great benefits, among which we mention the increased resistance of the body to colds, as well as general desensitization action on allergic problems.

Each group will have a maximum of 12-15 children.

The authorized medical office is equipped with all the materials necessary for first aid. The medical services are provided by a pediatrician and a nurse.

Also, the **AVANGARDE KIDS Educational Center** has a generous courtyard with outdoor toys where children can play and have fun each day.

At the same time, the **AVANGARDE KIDS Educational Center** offers you the opportunity to celebrate birthdays or other special events in your children's lives at the center.

Information

- **Opening:** September 3, 2018
- **Motto:** *Kindergarten where your acorn becomes a strong oak!!!*
- **Our mission:** Harmonizing the psychological development of the child with its social integration by polishing the native features.

Under the slogan “*your acorn will become a powerful oak*”, the entire **Avangarde Kids** team is constantly taking care that each child can flourish through creativity, curiosity and responsibility. It is our promise that we will burden ourselves with cultivating these values during the schooling of the little ones at the **AVANGARDE KIDS Educational Center**.

We thank the parents who are with us in the educational process and trust us in shaping and educating the personality of their children.

- **Values:**
 - ✓ Quality
 - ✓ Professionalism
 - ✓ Creativity
 - ✓ Innovation

- doctor and pediatrician
- speech therapist and counseling psychologist when needed

- ***Material resources:*** - ultra-modern facilities
- games and toys
- library
- PC / multifunctional
- TV / video-projector
- digital camera
- video surveillance

- ***Partnerships***

In order to achieve outstanding results and ensure the educational environment, we will consider the conclusion of partnerships that will bring value to the instructive-educational process.

We will maintain a permanent relationship with every child's family and try to integrate the parents, even grandparents into our own process. Thus, in addition to the organization at lecturing unit with parents, meetings, consultations or other activities organized within the framework of the partnerships, the parents will be invited to take part in both festivities and various thematic activities.

- ✓ ***Partnership with the family***

These activities aim to make the family-kindergarten relationship more efficient. Through the established objectives, the activities for parents lead to the exchange of views on the need for a healthy educational environment and the establishment of common co-ordinates to ensure the educational environment.

- we will dedicate March to the moms, who we will invite to the ***Glamor party*** (all the moms will have a special treat, worthy of princesses, with massage, SPA and a lot of surprises to be made or even executed by the little ones)
- May will without fail be the daddies' revenge, who together with their little boys and girls will make a fantastic ***Grill party***.
- Grandparents will have reserved a full day together with their grandchildren in June when they will together prepare a dessert from the childhood of parents of the little ones at ***Sweet Grandparents***

For each of the following partnerships, we thought it as a fingerprint that will be found in the bark of the strong oak we will be forming here:

- ***PARTNERSHIP WITH POLICE*** – Within this partnership, we aim to teach children to respect the traffic rules, to stimulate their interest in knowing the rights and duties of pedestrians and vehicle drivers and to teach them to defend their life through proper pedestrian behavior.
- ***EDUCATION FOR SAFETY PARTNERSHIP – Prevention is better than cure!*** Within this partnership, we will consider several medical specialties, because we believe that teaching the child from the earliest age to be cared for, to comply with the rules of personal hygiene, to become accustomed to a rational diet, means to lay the durable foundations to the formation of hygienic behavior. Going over an education for health program during kindergarten is the simplest way that notions come to the child as rules or norms and so it is easier to prevent bad habits than to correct them, or to act prophylactically instead of healing.
 - ✓ ***PEDIATRICIAN*** – will consult the children regularly.
 - ✓ ***DENTIST*** – The meeting with the dentist is not only aimed at examining the oral cavity but also the psychological preparation of a dental consultation. That is why our reliable partners at ***Crystal Dental Clinic*** will visit our little ones and, besides dental examination, will teach them how to clean the teeth, what products to use, but also how important the diet is for keeping healthy teeth and a perfect smile.

- ✓ **OPHTHALMOLOGIST** – Ophthalmologic examination is essential for the health of vision – perhaps one of the most important senses we have. WHO (World Health Organization) estimates that 80% of serious eye conditions could be prevented or treated. So, we can deduce the importance of a timely medical check-up. With the help of our partners _____, experts in the field of pediatric ophthalmology, your children will be able to look into the future without worries.
- ✓ **NUTRITIONIST** – Because nutrition is not just a fashionable word, but a lifestyle that we have to learn as young children, our nutritionist _____, after developing the menu that will follow all the rules of a healthy diet appropriate to age, with the regular meetings he will have with the children, will help them to create a healthy relationship with their food.
- ✓ **COUNSELING PSYCHOLOGIST** – As more and more people complain about the psychological effects of stress and anxiety, the American Psychological Association warns us that 1 out of 3 children suffer from depression and even tells us about the emergence of a new syndrome, ATCP (Angered Temper with Choleric Progression) that children show when they feel neglected by their parents. Behavioral problems can also be caused by the increased rate of divorce or the isolation of the little ones in the state-of-the-art tablet and telephone universe. Under these circumstances, the psychologist must not be circumvented, but becomes a friend who, using his experience can help you outperform the moments of crisis in your life or of your children. We strongly recommend our partners _____ to whom we also call upon in need.
- ✓ **SPEECH THERAPIST** – Every parent wants a child with good faith in himself, a child able to understand and communicate properly at home, at school, in the community. Like any ability, correct and clear speech is naturally taught by parents, grandparents, kindergarten and sometimes, when appropriate, with the help of a speech therapist. The role of speech therapist in acquiring and developing language is essential when dealing with various pronunciation disorders, delay in language development, dyslexia, dysgraphia or various neurological syndromes. We have chosen for you specialists in this field and we recommend our partners _____ **Covorașul Fermecat Association.**
- **PARTNERSHIP WITH THE THEATER** – Theatrical performances satisfy the child's natural need to participate in actions to enlarge their spiritual world, fulfill their thirst for knowledge, give them the opportunity to excite themselves strongly, to be able to indulge themselves to build lasting believes. Therefore, we propose that every month to receive in our house the actors from the Țândărică Theater, and with the little oaks and the oaks (the children from the middle and upper kindergarten groups) to go into the room to feel the atmosphere as much as possible.

- **PARTNERSHIP WITH BUCHAREST SPORT CLUB** – During the pre-school period physical development is spectacular, being one of activating and practicing the movement capabilities, as well as of acquiring new skills that propose rhythmic coordination. Supporting, trusting, building self-confidence, creating spaces and opportunities for movement and practicing motor skills are elements that will stimulate psychomotor development and motivation for movement. For these we will need people with experience in working with children, so we have called on professionals and we are happy to have by our side the swimming teachers with whom your children can learn the mysteries of this wonderful sport, but also the wonderful dance teachers who will take exercise with the children throughout the year.

- **AVANGARDE FOREST PARTNERSHIP** – last but not least, we have concluded a partnership with Avangarde Forest, the initiator of a large-scale project, a leading leader in the field of housing construction. So at the kindergarten we want to be the home next to the home, the kids will feel the better, as they will go accompanied by our educators in the park of the complex.
